

START YOUR JOURNEY

GROW YOUR POTENTIAL

Our START programme is an accelerated one-year programme which develops individuals who are passionate about technology and who want to become part of a culture where innovation and creativity is at the heart of everything we do.

Our START Programme

We are looking to recruit enthusiastic, creative and forward-thinking graduates, who are ready to start their career within a leading audio-visual company.

We will help you build your career, develop your skills and give you the opportunity to achieve your ambitions. Whether you join us on a engineering or business management graduate programme, you will have the opportunity to learn directly from our highly experienced and well-respected industry professionals.

Throughout the programme you will gain experience across many different areas of our business. You will gain skills, qualifications and knowledge to help you become a well rounded business professional, who will contribute to the on-going success and development of Electrosonic.

You will spend time working in each business unit, learning from some of our subject matter experts and experienced industry professionals

Working with state-of-the-art technologies, you will have the opportunity to work on some of our amazing and ground breaking projects, many on an international level

We will provide you with the best training platforms and the opportunity to gain industry certifications, enabling you to succeed and achieve your full potential, whilst helping you build a career you love

The opportunity to travel and work onsite (depending upon project demand and availability)

An opportunity to be considered for full-time permanent employment upon completion

How to apply

If you are interested in working with motivated and passionate people, who help drive the future of audio-visual experiences, please contact us now and tell us why we should hire you.

Please submit a covering letter and CV to recruitment@electrosonic.com
